

Darkness Awakened: The Supernaturals (Volume 3)

The Omega Jori Poitier grew up never claiming the Gasquet name as he is something to be feared and an abomination in Lycan society. He is an Omega, a supreme being of their kind who can shift into any powerful animal he so desires even though he is pureblood. The Faerie Laurentine Favreau is part Demi-Fey and part Sidhe but there is a secret part of her family no one talks about. For generations, the Favreaus have been indentured servants to the de Vries family, the most powerful Lycan Pack in the world. Her work for the King is never done until he asks her to do a special favor that will change her destiny. Taken The King has a special request for Jori and the Omegas reward is Laurentine. However, from the moment these two passionate people meet, he knows he has no need for her to be his indentured servant. He wants her to be his mate but will she agree to such an arrangement she had absolutely no say in the matter what so ever?
