

## Hunting Mila

John Hunter cant refuse a request from his birth father to find his soon-to-be stepsister. But finding Mila means finding trouble because it follows her everywhere. All he wants is to get her back to Earth and get his father off his back. The instant and almost overwhelming attraction to her doesnt make him any happier. Mila doesnt need an overgrown Neanderthal in her way. She has a mission to accomplish. So what if she is a thrill junkie. She does her job, and does it well. But before she can dump Hunter, her little game becomes more dangerous. Getting Hunters help means keeping him around, and doing that makes it impossible for her to keep her hands off him. But even if she does end up in bed with him a few times okay a lot of times it doesnt mean she wants him butting in her business. And that is just what John does best. Uncovering her secrets could get both of them killed...if they dont kill each other first.
