

## Seductive Intent

Set in the same world as Executive Perks. Its not unusual for playboy Brendan Beckett to wake up with a girl in his bed. One holding a gun to his head, though, does give him pause. In the dark, he cant see the female burglar grilling him about some safe, but he has to admit he likes the feel of her straddling him to keep him still. Sophia may not know her last name or her real age, but she knows the life of crime, usually as bait for the rich men she cons. But now shes looking for a mysterious puzzle-box that her mentor urgently needs. When she cant get any information out of Brendan during her midnight foray into his apartment, she crashes his sisters wedding to meet him and hopefully spark his interest. The stacked beauty sparks something, all righthis suspicion. At his house in the Cayman Islands, Brendans determined to get the truth out of her. Or seduce her. Actually, hes kind of good either way.
