

Taking Command

Dangerous missions, hidden enemies, an unexpected passion threaten to destroy them. Tarik Baill is on a mission to keep a corrupt government from turning a new life form he created into a weapon of war and destruction. Even if he is successful at getting past the guards, securing the ship, and taking command of BioOne, he'll have to navigate a volatile and deadly region of space to rendezvous with his group. Taking a sexy brunette dressed in a skintight body suit as a hostage and dealing with an eager to please sex-bot was never part of his agenda. But for Tarik, nothing ever goes as planned. Shon Monets assignment is to tour the ship and tout the accomplishments of a government that will reign in a new era of diplomacy. Then why the secrecy surrounding BioOne? In order to find out, she steals aboard the ship only to become an unwilling guest of a hijacking. Shon is determined to uncover the real story of BioOne and Tarik Baill. But how is she supposed to focus on the mission when, with the slightest touch, the sexy and dangerous pirate makes her shiver?
