

Taking Stock

Her last days on Earth could be out of this world. Zoe has accepted that a brain tumor will make this Christmas her last. She plans to spend it in the Caribbean, hoping some gorgeous guy will scoop her off the beach for a passionate affair, a one-night stand-anything just to be held and wanted. When she discovers-horror of horrors-she has no unread books for the plane trip, she heads out for an early-hours run to good old 24/7 Supa-Mart. Rows and Kais lives are so regulated by their home planets equivalent of Big Brother they even have to hide their thoughts. Not easy when a secret attraction exists between them. When theyre chosen for an off-world reality show involving unsuspecting humans, they jump at this no-rules chance to open their hearts. When the giant stores exits clang shut, trapping Zoe and several others inside-including two impossibly sexy guys-Zoe figures she wont need a beach for a no-strings romance. But it doesnt take long for her to realize she could be facing the end of her short future sooner than she expected. Warning: This book contains two hot aliens with interesting anatomy, one lucky human heroine, zero-gravity menage sex, male-male tongue worship, and all the toys one super store can provide.
