

Haven (Grey Wolves Rising Book 5)

Laura Taylor lost her first love to a sudden, mysterious fire ten years ago and she's never moved on. Now Ben is back--appeared right out of nowhere, not a stitch of clothes or explanation on him...and he's brought a friend. Torn between the comfortable love of her past and the unexpected, breathtaking draw of Caleb, who seems to know her in ways beyond a shared history, how will she choose between them to find her future? Will she even have to choose? Author Note: The first four books in the Grey Wolves rising series have featured a monogamous couple. The heroes and heroine of HAVEN are a bit more complicated and don't recognize such black and white lines. Their lines are much more rainbow in hue. The heroes DO touch each other in intimate situations.
