

Classic Wooden Yachts of the Northwest

Beautiful color photographs and evocative text transport the reader back to the golden age of Northwest yachting, when custom-designed and custom-built wooden yachts cruised the inland waters of the British Columbia and Washington. The Northwest is a premier center for classic wooden boats, and this book showcases nearly 40 of these beautiful craft, most built during the 1920s and 30s and now lovingly restored to their original condition. Admire the gorgeous lines and teak decks of the exteriors, then go below to see fine woodworking, gleaming varnished surfaces, bronze fittings, customized designs-all the lavish details and craftsmanship that make these boats floating works of art from a bygone era.
