

## The Witch and the Werewolf (Two Moon Dawn Book 1)

Cassandra Kent only wanted spend humanitys last night in her lovers embrace, watching as the world killing comet known as Wormwood slammed into the Earth, obliterating life as we know it. For one night she wanted to be free of her over protective mother, free to finally do what she wanted. Fate though, doesnt always cooperate with ones desires. Fate, sometimes, is a real bitch. Cassandra learns two important things on that, the last night of the old world. The first is that not only are werewolves real, but her mothers people, the witches, have been hunting them for generations. For hundreds of years the witches have been the only force keeping the werewolves from overrunning the world and turning man into a primary food source. With the coming of Wormwood, though, the scales have tipped. Mankind will no longer be the dominant species on the planet. Cassandra just barely escapes into the post apocalyptic wastelands around Houston, Texas as the pack slaughters her mother. As she runs her motherss last words ring in her ears. In order to save the human survivors from the werewolves she must find and kill the first werewolf, ending his control over the worlds packs. Kill the alpha, save the world. But in order to do that, though, shes going to have to learn exactly what it means to be a witch and master her newfound powers. And she soon learns that the worst monsters, in the ruins, arent always the werewolves.
