

The Broken Hearts Society of Suite 17C

Friends dont let friends make the same horrible relationship mistakes twice. Rion, Amy, and Arielle, the three occupants of first-year dorm Harrison Towers Suite 17C have never met before the first day of school, but they soon discover they have one thing in common being on the wrong end of an epically awful breakup. Heartbreak sucks, especially when the girls should have seen the trouble coming from a mile away. But theres no better time than the beginning of college to take charge of your own love life, and nobody better than a roommate to keep you accountable. Over ice cream and pizza their first week, the girls vow never again to date anyone like the assholes who ripped their hearts out and smeared them across the quad. And thats how the Broken Hearts Society of Suite 17C is born. Now, if only Crash, the tattooed, pierced, and probably stoned guy who works at Rions newest job, wasnt so damn sexy and sweet... If only Matt, the thoughtful and driven pastors kid, would quit being so okay with just being Amys friend If only Lauren, the innocent California girl with her own set of issues, would stop finishing Arielles sentences and invading her dreams it would be a lot easier for the girls to keep their promises to the Society and to themselves. If only.
