

Silently Broken (The Broken Series Book 3)

Zane Tishler has never been the All-American picture of happiness. Every time he seems to get his feet under him, someone or something has to rip away his chances at healing. His girlfriend and son are missing after a devastating fire that left the home they shared in ruins, along with his life. How long can someone cling to hope without the two most important people in their life? Lili Cortez has always been a runner. It's how she's survived for as long as she has. But, there comes a point when you just can't run anymore. Lost in a world darker than she ever could've imagined, she has to figure out how to live with the choices she's made in her past and now. She has to act fast if she's going to save the people she loves. That's what matters. Even more than her own life. Zane and Lili were finally finding their very own happily ever after when tragedy struck. What happened the day of the fire? Where are Lili and Conner? How can Zane and their family deal with this deep of a loss? What happens when your world is turned upside down and guilt eats at you during every waking moment? What do you do when all hope fades and leaves you Silently Broken? *Trigger Warning: This book contains strong acts of violence, rape, and depression. The contents within this book are not for the faint of heart, but nothing is overtly graphic. All the feels are present and accounted for, so grab a box of tissues and expect a whirlwind of emotions.* Praise for Silently Broken: There are some stories that sit with you long, long after you finish them. This series is that and so much more for me. I didn't just read their books, I lived their lives. I felt them everywhere I went. I saw them in my dreams. And that's because Maegan Abel brought nothing less than her absolute A game with this last installment. Silently Broken is a phenomenally written, gut-wrenching conclusion to the Broken Series that is an

absolute must-read for 2015. - Kandi Stiener For me, this was that one book I was reading while waiting on my Starbucks drink in the drive through line, slowly creeping forward with each honk of the horn You know, that one book that consumes your lunch breaks, and your normally healthy sleep schedule and maybe some of your mommy duties? Just one more chapter, page, or even paragraph. This is the one. - Brittany L. Discovering this author was like finding a priceless treasure chest in the ocean. After finishing Silently Broken, Im sitting in complete AWE of Maegan Abel, and cant even force myself to pick up another book. It feels like it took forever for this book to come out, but OMG totally worth the wait! I want to start out by saying, nothing I write in this review, could ever accurately describe how EPIC this book is. And the 5 stars barely scratches the surface. Maegan Abels writing style was smooth and the story flowed perfectly, plus the dual POVs made it even more powerful. She does a BRILLIANT job making me experience firsthand the powerful emotions to wreck me. My heart has been ripped out, set on fire, and stomped on while putting the fire out. I physically feel beat up from the emotional roller coaster ride. Every time I thought I had no more heart to break, she took it up a notch. She has done a fantastic job developing the characters through the whole series, that I feel like they are members of my family. And the sensitive subject matter was extremely well done and very realistic. I could honestly go on and on, but I hope you experience the story/series for yourself instead. I will never be able to HIGHLY RECOMMEND Silently Broken and Maegan Abel enough! - Jennifer Pierson
