

## A Hebraic Perspective About Why You Must Study The Stars

A Hebraic Perspective About Why You Must Study The Stars Day four of creation And God said, Let there be lights in the firmament of the heaven to divide the day from the night; and let them be for signs, and for seasons, and for days, and years: (Gen 1:14 KJV). Here is a direct instruction right in the beginning of the Torah where YHWH clearly instructs us that we MUST study the signs in the stars, moon and sun. But David adds to this in Psalm 19 and says that studying them would give you knowledge. This means the heavens are broadcasting information and revealing knowledge every day and night. They have a message from YHWH that is being revealed especially to Earth. This is much more than astronomy; the heavens speak special knowledge without sounds or words. They communicate with pictures, signs, and symbols. They are silent witnesses! The purpose for which these celestial bodies were arranged was fourfold: 1) To divide the day from the night. Literally, between the day and the night. 2) And let them be for signs, and for seasons, and for days, and years. 3) And let them be for lights in the firmament of the heaven to give light upon the earth. 4) To give the earth-dwellers special knowledge. In the Book of Job YHWH asks Job: 31 Can you bind the chains of the Pleiades or loose the cords of Orion? 32 Can you lead forth the Mazzaroth in their season, or can you guide the Bear with its children? 33 Do you know the ordinances of the heavens? Can you establish their rule on the earth? (Job 38:31-33) The Mazzaroth is the Hebrew word for the twelve constellations within the suns apparent path through the heavens, commonly referred to as the Zodiac in the Greek language. The Mazzaroth is in the form of pictures constructed from the stars within that constellation: a woman (Virgo), scales (Libra), a scorpion (Scorpio), an archer (Sagittarius), a goat-fish

(Capricorn), a man with a water pot (Aquarius), two fishes (Pisces), a lamb (Aries), an ox (Taurus), twins (Gemini), a crab (Cancer), and a lion (Leo). In YHWH's response to Job, He indicated that He alone brings forth the twelve signs each year in their proper months. Psalm 19, and Shaul's quote of it in Rom 10:16-18, proves undoubtedly that the Mazzaroth was designed by YHWH as a means of communicating astonishing messages in pictures to all languages of the earth. Therefore, Believers are commanded in the Torah Gen 1:14 to study the heavenly bodies! The Bible outright prohibits divination through Pagan Astrology or any other means. Divination is the use of the devils lies to interpret the meanings of things and predict the future. Almost all astrology is divination because the devils lies are the basis for interpretation. Divination is an attempt to determine spiritual meaning apart from Biblical truth. Whatever is not from faith (Bible Doctrine) is sin (Rom 14:23b). Divine viewpoint, in contrast to divination, is application of Bible Doctrine (faith) in order to determine Spiritual meaning. Divine viewpoint is the accurate interpretation of events based upon application of Bible Doctrine. Thus we have Scriptural Astrology and Pagan Astrology. The Believer is commanded to walk by faith (2 Cor 5:7) and walk by the Spirit (Gal 5:16). Thus, divine viewpoint (Scriptural Astrology) is commanded. Astro simply means that relating to the stars or celestial objects and logy means the science or study of. Thus, Biblical Astrology is the studying of the spiritual knowledge derived from studying the science of the stars (astronomy), from a Divine viewpoint, as instructed by YHWH in the Torah. Because the heavens are recounting the glory of God, therefore, the Believer must have divine viewpoint about the heavens; otherwise, he will be guilty of divination from human viewpoint, which is not from faith (Bible Doctrine). Thus, it is not those who practise Biblical Astrology who are guilty of divina
