

The Last Siren

Major Garth Rand alNoor is a disposable hero, bitter and well on his way to a path of self-destruction. But when an eccentric admiral sends him on a fools errand, he remains pessimistic, unable to believe that a mystical winged-nymph, a siren, has crashed into a navy ship. Until he sees her with his own eyes and is claimed by the ravishing beauty within moments of their meeting. When the news about the siren leaks to the media, the situation escalates into a full-blown manhunt, the Cercius government sending their finest headhunters to terminate the magical creature. Garth has found his purpose in life and refuses to let anyone get between him and the woman he has fallen in love with. But Garth doesn't know that she carries a dangerous secret, one that could threaten the existence of one and all. The secret that has made her the last of her kind.
