

## Ringmaster (The Magic Carnival Book 1)

Book one in a compelling new Urban Fantasy series set amidst the magic of the circus. For hundreds of years, the magical Jolly Carnival has delighted audiences with its amazing acts and death-defying performances but all that is about to change... Darkness has infiltrated the Carnival, and if they don't act fast, everything their ancestors worked for will be lost. When the Carnival's unique power is shattered by a series of unexpected attacks, culminating in the death of their talented Ringmaster, it falls to his daughter Rilla to hold everyone together. Even as Rilla is reeling from the loss of her charismatic father, another blow hits. Outsiders turn up to challenge her right to be the next Ringmaster, forcing Rilla to prove she has what it takes to lead the Carnival and restore their magic in just three short weeks. To save her beloved Carnival, Rilla must do everything she can to find the saboteur. But if she takes her eyes off the battle for Ringmaster even for a second, she risks losing everything she's trained for her entire life. I would like to applaud the author for coming up with a story line that I had never seen before. Most books I read, while I enjoy them very much, are not something really new. This book crosses several genres. At heart it is a paranormal, but it is also a beautiful romance, and an exciting and intriguing mystery. I can't wait to read the next one! - Amazon review. Author Q&A with Trudi Jaye: What kind of book is this? It's got a little bit of adventure, some magic to make it interesting, and of course two main characters who are not only strong-willed and smart, they're also made for each other. The specific genre is hard to pin down, but I think of it as a mix between paranormal romance, urban fantasy, and magic realism, with a bit of mystery thrown in. What made you think of writing about a magic traveling carnival? I've always loved the circus, and the amazing things that people

can do in the name of a fantastic performance. When I was looking around for a setting for my series, it seemed a natural fit. There's a magic to the carnival, a feeling that more is possible than the eye can see. I was also attracted to the idea that there was more going on behind the scenes than the innocent audience members realised. Who do you think would like the series? I think anyone who loves a good romance story - with a twist - will enjoy this series. I can never write stories without something a little bit out of the ordinary ending up in them, so you need to be someone who enjoys reading about magic, with fantasy and paranormal elements.
