San Diego, California author Todd Easterling, originally discovered by the Jay Garon-Brooke Literary Agency of John Grisham fame, paints vivid atmospheric settings, real world dilemmas, and sympathetic characters who leave an indelible impact on the reader in this sweeping story made for the big screen. The author's last novel, *The First Witness*, has been in the top 1% in sales of all/4.4 million books for over two years and on 8 Best Seller lists, as high as #1. On a mission to take control of what has threatened to destroy everything that's important to her, Katie leaves behind her life in Kentucky horse country, where she works for a thoroughbred breeding and genetics facility, and finds herself on an unexpected dangerous adventure in Africa pursuing the world's most renowned expert on genetics, a doctor devoted to saving and bringing back endangered species in the amazing new field known as de-extinction and resurrection biology. To ensure accuracy with technical aspects of the story, the author enlisted the help of celebrated experts including Nobel Prize nominee Sir Ian Wilmut, who was knighted by Queen Elizabeth II for his astonishing breakthrough in cloning a mammal (Dolly the sheep), and Dr. Hal Broxmeyer, who pioneered work in a revolutionary new procedure. USA/September 18:*****A

defiantly great read! I loved the characters. I didn't want to say goodbye to them.

USA/July 28: *****Best novel I have ever read. I am usually a follower of Danielle Steel, Nora Roberts, Jude Deveraux, but this novel was FANTASTIC...I could not put it down. Romance, adventure, danger, excitement, travels through Africa as though I was right there, African animals described like I was watching them, in the jungles, unbelievable medical information about cloning and how far we have come in that direction...Not a dull moment in the book...What a blessing to be born a true writer who captures every single moment that grabs the reader right in and doesn't let go.

Australia/May 9:...reminded me of the best of Nicholas Sparks and Jodi Picoult...and I loved how the story paid homage to Ernest Hemingway's *The Snows of Kilimanjaro*, and the novel *Out of Africa*...stunning descriptive writing combined with solid research, and a romantic backdrop leaps beyond today's category romance and adventure stories...very impressive, potentially ground-breaking novel...for the serious, discriminating reader who wants more than a quick fix run of the mill story.

Canada/April 8:...Beautiful sensory writing. A sweeping story...

UK/March 23: I was enthralled by this book & I couldn't stop reading it...

USA/March 25: It's truly an enchanting story written in such a manner as to keep the reader looking for what will happen next.
