

Silent Caller: Book 1 - Warfields Landing (Warfields Landing)

SILENT CALLER Daniel is everything Nic wants in a date... The icing on the cupcake? He isn't her crank caller. After several wonderful weeks together, Daniel is pulled away... And her inconvenient caller escalates to terrifying stalker. Things go from inconvenient to dangerous... and she's on her own! A good read for fans of Melinda Leigh and Kendra Elliot. This is a complete novel. In the series, books can be read out of order with only minor spoilers. Previously published as *Dreams Claimed*, this book has undergone editorial revisions.
