

Romance in the Ruins - The Complete Collection

WORDS OF LOVE Its the adventure of her dreams, a race against time, and passion where she least expects it. Graduate student Jessica Riley can hardly believe her good fortune. Shes finally working among Maya ruins, deep in the Guatemalan jungle. But to top it off, shes secluded with archaeologist Brett Delacourt, the most gorgeous man shes ever seen. Brett has made the find of the century, but hes keeping the site a secret. He needs Jessicas singular gift to locate the grand prize: the burial site of the Mayas first ruler. Unfortunately Bretts obsession has put them in the midst of a massive monsoon. Meanwhile Jessica tries to hide her lack of experience and the worsening symptoms of an illness. But as they make one thrilling discovery after another, their shared passion boils to the surface. Little do they know that the waning storm has held looters at bay.

LABYRINTH OF LOVE The path to love isnt just winding. Its dark, erotic, and dangerous. When labyrinth expert Dr. Helen Montrose is summoned to the island of Crete by archaeologist Edith Evans, Helen can hardly wait to learn the reason for her visit. But when she discovers that Dr. Dimitrius Petros has also been invited, Helen refuses to participate. Despite his wealth and good looks, there is no way she will work with an arrogant and domineering man like him not even for her good friend. But sudden tragedy forces both Helen and Dimitri to set aside their differences. With their defenses down, they quickly discover that each is not what they had seemed. Although Helen and Dimitri can no longer deny the powerful attraction between them, the labyrinth harbors danger at every turn and a deadly secret at its heart.

STARS OF LOVE A reclusive billionaire. A dedicated astronomer. An expedition that tests both their hearts. When astronomer Rebecca Knight is asked by reclusive billionaire Mitchell Simmons to join an

archaeology project, she can hardly say no. Not only will the work help to prove her radical theory about astronomy in the ancient Southwest, she'll live a real life adventure in the field. But Rebecca quickly discovers that neither the journey nor Mitchell is what they seem. Wild rumors about the geeky, dot com recluse bear no resemblance to reality. Instead, he's a thoughtful and commanding presence, not to mention an intensely attractive and sensual man. Though the passion between them is unstoppable, their voyage takes a deadly turn. An unseen enemy shadows their steps, and will do anything to steal their discovery.
