

Three Wishes (Dreams Come True) (Volume 3)

With his gift for storytelling and his degree in film making, his plan had always been to see the world. A semester from finishing his graduate degree, Ben was assigned to make a dying girls wish come true. If he could hold it together, he might just fulfill one of his own. The problem was he had never been good with kids and even less comfortable with beautiful women. Life hadn't been easy for Charlie after being kicked out of her parents house and dumped by her boyfriend when she refused to have an abortion. Now, six years later, Charlie's daughter had leukemia and all she wanted was the same thing she'd wanted since she took the pregnancy test so long ago: for her baby to live. After two long years of treatment, and news it hadn't helped, Olivia had one last wish: to leave a legacy for her mother. As she worked on the documentary with Ben, it seemed to be working and Olivia felt better than she had in a very long time. Then the father she'd never met showed up. Three people. Three wishes. One chance to make all their dreams come true.
