

Whats Love Got to Do with It?

In this refreshingly down-to-earth exploration of human mating and sexuality, an acclaimed anthropologist looks at the fascinating intersection between the imperatives of our glands and genes, and the culture in which we live. Why do we fall in love with the people we do? Is there an alternative, more feminist, way to interpret traditional human sexual biology and evolution? These are but a few of the questions that anthropologist Meredith Small explores in her compelling book on human mating, *Whats Love Got to Do with It?* From the Trade Paperback edition.
