

Queen of Pain (Things You Cant Tell Mama)

Tara Wilson married one of the wealthiest men in the world when she wed friendworld social media site creator Brandon Larson. Tara grew up poor and lived in a single wide mobile home off a blacktop road with her family when she was young. All of her life Tara was trying to prove that she was not poor white trash like she was called all those years ago. Taras efforts to prove her worth caused her to impose deep emotional pain in men that dared to love her over the years, but the cruelest blow was to be inflicted upon her. Tara was blindsided by a betrayal so cruel that it shook her to the core of her being. Would Tara deal with the ultimate betrayal by crashing and burning or rising like the mythical phoenix?
