

# Torched (Iron Serpents Motorcycle Club Book 1)

This is a full-length novel (approximately 110K words) in dual POV\* Warning: Contains crude language, explicit sex, and some violence.

~~~~~ My name is Livia Ash. Its an alias. The secrets and lies dont end there. As a teenager, I was forced into a rough life, my freedom and innocence ripped out from under me. To get out, I had to become like the very people I hated, people who had no problem spilling blood just to make a point. It almost cost me my own life, but I did it. Battered and broken, but determined to start over, I ran. Right into the path of Cameron Torch Larter, member of the Iron Serpents Motorcycle Club. Overbearing, rude, and intimidating, he was everything I didnt want to deal with. But the rugged biker Adonis - with his piercing eyes and sharp tongue - also got under my skin. Forgetting him proved to be just as hard as breaking free from a life of crime. Neither happened. By the time our worlds collided a second time, Id moved up from the dark alleys of Philly to the dark recesses of the internet, hacking my way to the top of the game. And Torch? Well, he was still the same infuriatingly sexy, hulk of a man I couldnt trust myself around. Old enemies and new threats meant I couldnt act on my desires, but Torch wasnt the type to give up or take no for an answer. Could two very different breeds of outlaws ever come together without getting each other killed?

This is our story. \*Authors update 3/6/15 - Ive heard the feedback about possible POV confusion between section breaks. Livia/Torch tags have been added to the beginning of every scene where POV switches to prevent that, starting when Torchs is introduced.
