

Bitter Moon I: Trianes Son Ascending

All is not right in the land of the three moons. From the moment Yarrri Moon was born, Tarrant heard the bells of joy whenever she was near. But the world can be a cruel place, even for the moon destined, and when an evil born of ignorance destroys their families and their home in the heart of Clough, Tarrant and Yarrri learn first hand how ugly prejudice against the Goddess moon can be. After a terrible journey, they find shelter with Yarris family in Eiran, a land of easy tolerances and joy. However, as Tarrant grows, so does his anger at the forces that destroyed their peace, their home, and their family back in Clough. Tarrant is a healer and a poet, and he has the magic gift of truth. As he waits for Yarrri to come of age, he sees, first hand, how the same beliefs that destroyed their home are poisoning the lands around him, and corrupting the hearts of the people within. Ultimately, Tarrant is faced with a choice: He can claim Yarrri and they can live the love that has been promised them since the beginning, or he can take his one, most terrifying and secret gift into the land of Clough and remove, in one dreadful strike, the evil that has cost him and his beloved so very much. But choosing vengeance over love exacts its own terrible price, and Tarrant may find that the part of him that was destined to be loved by Yarrri is the part thats annihilated in his quest to make her safe.
