

Twice Cursed

Be careful what you wish for When Lori gambles away all of her vacation money at a casino in the Bahamas, she goes to see a fortune teller whom she is told can bring her luck. It would be great to be rich, she thinks. That is all she would ever need to be happy. But she foolishly disregards her benefactors warning, cheating him, not knowing he is a man well versed in the ancient art of Voo Doo. She is not fit to be human, he decides, and will exact a suitable revenge. Twenty years pass. In the States, summer grows hot in the suburbs of Michigan. Young women are disappearing without a trace. Unaware how close danger lies, April Caldwell cant believe her luck. Shes met Jay, a sexy new guy who is everything she could ever wish for. He seems too good to be true, and then weird unexplained events begin taking place. She wonders if Jay is hiding something from his past, if he has a dark secret. As the curse gathers victims, who will be next? And are there fates far worse than death? Nancy C. Johnson is the author of the bestselling romantic-suspense novel: Her Last Letter Twice Cursed is approximately 107,000 words or 350 pages in length.
