

## Subordination

When Sophie Jameson first became a domme at Club 1740, it was more out of financial necessity than it was for personal pleasure and sexual exploration. But over the years as she rocked her leather corsets and boots while wielding every crop and flogger imaginable, she grew to love the thrill and adulation that her clients brought her. But all along, her path in life and her heart was with a different profession she was planning to embark on at the summers end. And then he changed everything. Tall, dark, impossibly built William was the complete opposite of whatever image a male sub conjured up. After all the subs, Sophie finally felt true lust and desire. Although he was the proud stallion who needed breaking, he became the one to make her break all her rules and let down all her walls. But it was just supposed to be for that one night, but an accidental encounter days later outside Club 1740s protected walls had the two seeing each other in a different light as simply Sophie and William, not Domme and sub. While they should have parted ways, they couldnt. While they should never have gone back to her place, they did. And that simple mistake has a serious price for both of them.
