

Ultimate Passage: New Beginnings: Box Set (Books 1-4)

This edition collects the first FOUR Ultimate Passage books into a single volume. A sexy sci-fi new adult series Finn and Marissa and a few friends. Follow them as they travel between two planets trying to save loved ones and avoid enemies. **HER ALIEN SAVIOR** A sexy alien and the human hellion he can't resist, even when she's his intended target. Finn is an alien soldier without emotions. His people don't yield to emotions. Or do they? Marissa Sanchez is a determined, smart-mouthed, Texas Latina spitfire that brings out emotions Finn's Asazi nature rejects. And she's a woman with a target on her. He's the Savior. She's the hellion. Boy, is she ever! **HIS HUMAN HELLION** A spitfire Texan finds herself in love with a man who isn't supposed to have emotions, and isn't even a man, except, he's more man than any man she's ever met before. And now she's pregnant with his child. A child that could kill her. Marissa jumped out of the frying pan and into the fire when she fell in love with Finn. Now he says the only way to save her life is to take her to his planet? I don't think so. **MIDLAND REFUGEE** Taya is a former concubine with desires that she wasn't raised to cope with. She finds herself attracted to a Kormic warrior--one of the Asazi blood-sworn enemy. Barz is a warrior who's given up on love--and women. The last thing he wants to do is have feelings for the Asazi ex-concubine with the red hair, flashing blue eyes, and shimmering skin that betrays her desire. Tradition dictates that he has to share her with his brother. He's over the whole sharing thing.

Both Taya and Barz, the ex-concubine and the warrior, are staying with Finn and Marissa, stuck on Finn's home planet, waiting for Saraz to create a portal that leads to Earth. Except Saraz won't create it until Marissa gives birth to the child Saraz claims has been prophesied. Alis got color-changing skin and wings. On her

planet, the skin is normal, the wings--not so much. Not on females. She doesn't want the wings. And she most assuredly doesn't want the prophecy that comes with the wings. What's next? RUNAWAY RENEGADE Ali smuggles herself to Earth. A fresh start in a fresh place, where there are no expectations, no boundaries. Or so she thinks. But she's got restrictions placed on her by her own kind, even here on Earth. What's a woman to do? The solution? Fit in somewhere. Where can a woman with wings and shimmering color-changing skin go? Easy! An exclusive nightclub where bodypaint and costumes are the norm. What she didn't expect to be the norm was the sexy stranger. Thane put the S-E-X in sexy. And he's got more secrets than she does. This book is intended for mature readers. 18+ This book has explicit sexual content. Please do not read it if this sort of thing offends.
