

Using MIS (9th Edition)

For undergraduate Introductory Management Information Systems courses.

Helping Readers Succeed in Management Information Systems As technology continues to change the way organizations do business, knowledge of MIS is critical. Using MIS shows readers how organizations use information systems to solve business problems every day. Illustrative cases, exercises, projects, and other aids ensure your readers connect concepts to everyday life. Unique guides in each chapter highlight themes in ethics, security, and other timely topics. The 2026? feature hypothesizes how the concepts, technology, and systems will change over the next decade to help readers anticipate changes in technology and think about how those affect business. Every year brings important new technology to organizations and the Ninth Edition reflects these trends, providing the latest MIS content available, keeping your readers up to date and knowledgeable on how to apply emerging technologies to better achieve their organizations strategies. Also Available with MyMISLab™ This title is also available with MyMISLab, an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts. NOTE: You are purchasing a standalone product; MyMISLab does not come packaged with this content. If you would like to purchase both the physical text and MyMISLab, search for: 0134473671 / 9780134473673 Using MIS Plus MyMISLab with Pearson eText -- Access Card Package Package consists of: 0134106784 / 9780134106786 Using MIS 013412409X / 9780134124094 MyMISLab with Pearson eText -- Access
