

Baby Debate: Everything you need to consider BEFORE becoming a parent

This is not another book about how to be a parent! Diane is here to transform the way you think about parenting! She's the first to help people focus on everything they need to know BEFORE they become a parent and the first to focus on whether or not you should even have a child. Diane gives birth to a whole new way of thinking about having babies and parenthood. The decision to become a parent is the biggest decision you'll ever make - even bigger than getting married. Other books and products on the market talk about what to do once you're already pregnant or have kids and that's too late. Diane talks less about the stroller and baby clothes and more about the reality of how a baby changes your life forever. Being a parent is a one-way ticket to an unknown journey of a lifetime. There's no turning back, no refunds, no exchanges, and no do-overs. Then why do some people spend more time planning a vacation or wedding than they do deciding if they should have a child? Society glamorizes having a baby. Diane delivers a true dose of reality. Be sure to read *Baby Debate* now! There will be no pregnant pauses! Millions of people want to have children but they have no idea what it really takes to raise them. Why? Because there are no resources available to help them navigate through this life-changing decision. That is...until now. This thought-provoking book will help you decide if becoming a parent is right for you AND inspire you to think about things you've never considered so we can create happier, healthier children and relationships. This is the first book that focuses on everything you need to know BEFORE becoming a parent. This no-frills, tell-it-like-it-is book will guide you through every aspect of becoming a parent: vFinancial vMental vEmotional vRelational vPhysical vSpiritual This book is neither for having a baby nor against becoming a parent. It's merely an attempt to get millions of men

and women to shift the way they think about having kids - from the fantasy of having a baby to the reality of a lifetime commitment. Learn what's really important BEFORE you even think about becoming a parent whether you're single, married, or divorced. The more knowledge and understanding you have, the more you can produce happier healthier kids and relationships! You Will Discover: The true costs of raising a child -- from cradle to college How pregnancy changes your body What men fear most about fatherhood Your real reasons for wanting a baby - passion or pressure? How to figure out if you and your significant other are on the same page about parenthood What emotions to expect What can happen to your sex life The revealing Kid Challenge that will help you make your decision How to get your kid fix if you can't have or decide not to have children If Parenthood is for you - how to proceed if it is and how to proceed if it isn't!
