

Trust Fund Babies

Jean Stone, the bestselling author of *Off Season*, weaves the extraordinary story of three cousins bound forever by the family fortune they share and the family secrets they don't dare reveal.... Mary Beth, Nikki, and Gabrielle have little in common except the vast Atkinson fortune they inherited. Growing up amidst the splendor of Manhattan town houses and summers on Marthas Vineyard, they've all learned the hard way that money can buy everything except happiness. Marked by a summer tragedy they've all tried to forget, each woman has struggled to find her own way to cope with the secrets of her past. Now Mary Beth is a pillar of the New York social scene, buying designer clothing and priceless jewels that even she cannot afford. Nikki searches for peace on the Vineyard, pouring her inheritance into endless charity work. And Gabrielle hoards her money in a Swiss bank account, safe from the husband who knows nothing of her wealth. But when their trusted executor disappears with their money, the cousins come together once again to find him. For each woman, regaining her fortune has a different meaning and will come at a different price. And in the end they'll learn that no one's secrets can stay hidden forever not even the truth of what really happened that terrible day so many summers ago.... From the Paperback edition.
