

When You Walked Back into my Life

For eight years Floras love affair with Fin was a whirlwind of fun and spontaneity - but when Flora wanted to settle down and have children, Fin vanished. Life moved on and Floras world filled with other people, other cares. There were benefits to being single - no socks under the bed, no mess in the bathroom - even if the memory of Fin could never be completely erased. But then suddenly, shockingly, Fin reappears. Hes a changed man, he says, and her wants her back. Is this a chance to put right the wrongs? Or a massive mistake?
