

Murder At Myrtle Beach (Sisters Week Series) (Volume 2)

Three sisters planned to spend a fun, relaxing week at the beach. Before the week even got started, though, the three were involved in a murder as well as a suspected case of embezzlement. While the three women, an FBI Agent, and a local Detective work hard to unravel the mystery, more bodies were added to the mystery. The local Detective wondered if one of these sisters was truly a victim or the suspect. He hoped he would be able to keep them safe long enough to find out, especially since he was very attracted to the youngest sister. This book is a novella of 17,000 words.
