

Wolf Guard

Vera might describe herself as voluptuous...but never sexy. With her curves a little too ample and her black rimmed glasses a lot too nerdy, she isn't the type of girl normally called pretty by a large, muscular man with a stunning smile. Of course, she isn't the kind of girl who normally attracts a nasty, overly aggressive stalker, either. But neither man is normal. They're both shifters. A bouncer at the trendiest nightclub in town, Arden got problems of his own life or death problems. He doesn't need any more, but his inner wolf demands Vera, threatening to consume him from the inside out if Arden fails to claim her. But getting close to Vera could put her in more danger. Arden is a wolf on probation. Miles, a powerful and vile feral, stalks Vera. If Arden gets involved, he could bring down the council's wrath on him, and be marked feral himself.

Arden must choose...let Vera fight for herself, or listen to his wolf and claim his mate, possibly destroying them both.
