

A Ring of Truth (A Valerie Urniak Mystery Book 4)

Valerie Urniak has never been exactly conventional. When her infant daughter died, the then-teenage mother went on to earn a doctorate in psychology and pursued a career as a psychologist, only to give up that profession to open a beauty shop. But after her police detective husband was murdered, she realized the importance of grabbing happiness when you find it, and defied convention again to do just that at the cost of losing both clients and a close friend. When Valerie happens upon some cold case police files she had tucked away and forgotten about after her husband's murder, she finds her investigative skills haven't tarnished in the intervening years. She begins looking into the disappearance of an heiress who had later been declared dead, and whose husband received a big payday when he collected her life insurance. While Valerie is seeking the truth about what happened in that case, someone from her past is stalking her someone whose resentment could cost Valerie her family and her life.
